

ER 1-7348 a

APR 20 1951

Your letter of 9 April 1951 causes me to regret that I had not made myself more explicit to my friend [redacted] when he wrote me about you in January. In his letter he stated that as you were presently usefully employed, any approach to you should be treated in confidence, pending decision as to whether a suitable place might be found for you here.

Our Personnel Office was, therefore, awaiting advice from you as to where correspondence might be directed in order to send you the forms required by this Agency in the consideration of all applicants.

If you will advise me of an appropriate address, further proceedings will be immediately initiated.

Sincerely,

Walter B. Smith
Director
